Aliza,

21.6.23

I came on this trip (8 days around Greece) with some apprehension - the distances, the balance between culture and nature, being part of an organized group, etc. These concerns were quickly put to rest. Your warm and friendly personality, your endless energy and deep knowledge, your patience, consideration and genuine love of people, and above all your passion for Greece and for guiding, brought us individuals together and .turned us into a unified group that had so much fun together

I had an outstanding time, for which I give you credit. True, Greece is stunning and fascinating, but I know my experience was greatly enhanced by having you as a guide. I believe in living in gratitude, and .today I am grateful you were our guide

I sincerely hope I will be lucky enough to meet and travel with you in the .future

!!Thank you for EVERYTHING
